DETAILED ACTION

1. This Office action is in response to applicant's amendment filed on 10/19/2006, paper #33.

Recapture Rejection

2. Claims 24-40, 43, 45, 46-66, and 77 are rejected under the Recapture rule with respect to patented file application 08/262,505, now US patent 5,657,600. More specifically, the claims failed to avoid the recapture rule because they had been broadened to include surrendered subject matter but had not been narrowed in any material respect. A reissue claim is considered to be materially narrowed and thus avoids the recapture rule when limited to aspects of the invention: (1) which has not been claimed and thus were overlooked during prosecution of the original patent application; and (2) which patentably distinguish over the prior art of record.

Allowable Subject Matter

3. Claims 1-23, 41-42, 44, and 67-76 are allowed.
